# SAFETY DATA SHEET

# **ROKAmer® 2000** EO/PO 2000

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878

Date of issue	:	2014-09-22
Date of revision	:	2022-12-27
Version	:	5

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier	
Product name	: ROKAmer® 2000
Chemical name	: Ethylene oxide and propylene oxide block copolymer
EC number	: Polymer
<b>REACH Registration number</b>	: Exempt from REACH: Polymer.
CAS number	: 9003-11-6
Other means of identification	: -

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses	
Base for detergent formulations. Industrial application.	
Uses advised against	Reason
Not determined.	-

#### 1.3 Details of the supplier of the safety data sheet

PCC Exol SA, Sienkiewicza 4 Phone: +48 71 794 2127	, 56-120 Brzeg Dolny, Poland
e-mail address of person responsible for this SDS	: kch@pcc.eu

#### **1.4 Emergency telephone number**

National advisory body/Poison Center			
Telephone number	: Not available.		
<u>Supplier</u>			
Telephone number	: Telephone: +48 71 794 2555, +48 71 794 2441 (available 24h/day) or +48 71 794 2690 (fax) or the closest local Fire Brigade		

www.pcc-exol.eu

# **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

Product definition : Polymer

### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements	
Hazard pictograms	: Not applicable.
Signal word	: No signal word.
Hazard statements	: Not applicable.
Precautionary statements	
Prevention	: Wear protective gloves or clothing and eye or face protection.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Supplemental label elements	: Not applicable.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	: Not applicable.

#### 2.3 Other hazards

Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

PBT	Р	В	Т	vPvB	vP	vB
No	No	No	No	No	No	No

Other hazards which do not result in classification

: The product does not contain components included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, and identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration ≥ 0.1% (w/w).

### **SECTION 3: Composition/information on ingredients**

:

3.1 Substances : Mono-constituent substance					
Product/ingredient name	Identifiers	%	Classification	Specific Conc. Limits, M-factors and ATEs	Туре
Ethylene oxide and propylene oxide block copolymer	CAS: 9003-11-6	>99	Not classified.	-	[1]
			See Section 16 for the full text of the H statements declared above.		

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

Туре

#### [1] Constituent

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. Put on appropriate personal protective equipment (see Section 8).

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician	<ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> </ul>
Specific treatments	: No specific treatment.

### **SECTION 5: Firefighting measures**

5.1 Extinguishing media Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Avoid heavy hose streams.
5.2 Special hazards arising f	rom the substance or mixture
Hazards from the substance or mixture	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous combustion products	: CO2, CO
5.3 Advice for firefighters	
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective** equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

### **SECTION 6: Accidental release measures**

6.1 Personal precautions, pr	otective equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
6.2 Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
6.3 Methods and materials for	r containment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance.

### 7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

Store between the following temperatures: -20 to 40°C (-4 to 104°F). Store in accordance with local regulations. Shelf life: 24 months from the date of manufacture. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

7.3 Specific end use(s)	
Recommendations	: No additional remark.
Industrial sector specific solutions	: No additional remark.

### **SECTION 8: Exposure controls/personal protection**

The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 8.1 Control parameters

#### **Occupational exposure limits**

No exposure limit value known.

**Recommended monitoring procedures** : Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

No DNELs/DMELs available.

#### **PNECs**

No PNECs available.

8.2 Exposure controls	
Appropriate engineering controls	: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Individual protection meas	sures
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical product, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection	
Hand protection	<ul> <li>Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. Wear safety glasses with side protection in accordance with EN 166. In case of a long-term direct exposure, nitrile rubber/nitrile latex &gt;0.2 mm thick, of minimum time of penetration 30 min should be used.</li> </ul>
Body protection	<ul> <li>Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

**Environmental exposure** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. controls In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### 9.1 Information on basic physical and chemical properties

<u>Appearance</u>	
Physical state	: Liquid.
Color	: Colourless to yellow
Odor	: Characteristic.
Melting point/freezing point	: <-20°C
Initial boiling point and boiling range	: Lack of data.
Flammability	: Lack of data.
Lower and upper explosion limit	: Lack of data.
Flash point	: Open cup: 270°C (518°F) approx.
Auto-ignition temperature	: Lack of data.
Decomposition temperature	: Lack of data.
рН	: 4,6 to 7,4 [Conc. (% w/w): 1%]
Viscosity	: Dynamic: 400 mPa·s [20°C]
Solubility(ies)	:

#### Solubility(ies)

Media	Result
cold water hot water methanol	Easily soluble Very slightly soluble Easily soluble
olubility in water	: Lack of data.
artition coefficient: n-octanol/ /ater	: Lack of data.
apor pressure	: Lack of data.
vaporation rate	: Lack of data.
elative density	: Lack of data.
ensity	: 1,01 g/cm³ [25°C (77°F)]
apor density	: Lack of data.
xplosive properties	: Lack of data.
Dxidizing properties	: No results available.
article characteristics	
Median particle size	: Not applicable.

#### 9.2 Other information

No additional information.

# **SECTION 10: Stability and reactivity**

10.1 Reactivity	: Reacts with strong oxidizers	
10.2 Chemical stability	: Shelf life: 24 months from the date of manufacture.	
10.3 Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur	
10.4 Conditions to avoid	: No specific data.	
10.5 Incompatible materials	: Oxidizing agent.	
10.6 Hazardous decomposition products	: Carbon dioxide. Carbon monoxide.	

# **SECTION 11: Toxicological information**

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Ethylene oxide and propylene oxide block copolymer	LD50 Dermal	Rabbit	>10000 mg/kg	-
	LD50 Oral	Rat	>40000 mg/kg	-
Conclusion/Summary	: No known significant effects or	critical hazards.		
Acute toxicity estimates				
N/A				
Irritation/Corrosion				
Conclusion/Summary				
Skin	: No known significant effects or	critical hazards.		
Eyes	: No known significant effects or	critical hazards.		
Respiratory	: No known significant effects or	critical hazards.		
<u>Sensitization</u>				
Conclusion/Summary				
Skin	: No known significant effects or	critical hazards.		
Respiratory	: No known significant effects or	critical hazards.		
<u>Mutagenicity</u>				
Conclusion/Summary	: No known significant effects or	critical hazards.		
<b>Carcinogenicity</b>				
Conclusion/Summary	: No known significant effects or	critical hazards.		
Reproductive toxicity				
Conclusion/Summary	: No known significant effects or	critical hazards.		
<u>Teratogenicity</u>				
Conclusion/Summary	: No known significant effects or	critical hazards.		
Specific target organ toxicity	<u>(single exposure)</u>			
No known significant effects or	r critical hazards.			
Specific target organ toxicity	(repeated exposure)			

#### Specific target organ toxicity (repeated exposure)

No known significant effects or critical hazards.

#### Aspiration hazard

No known significant effects or critical hazards.

Information on the likely routes of exposure	:	Routes of entry not anticipated: Oral, Dermal, Inhalation, Eyes.
Potential acute health effects	5	
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	No known significant effects or critical hazards.
Skin contact	:	No known significant effects or critical hazards.
Ingestion	:	No known significant effects or critical hazards.
Symptoms related to the phy	sic	al, chemical and toxicological characteristics
Eye contact	:	No specific data.
Inhalation	:	No specific data.
Skin contact	:	No specific data.
Ingestion	:	No specific data.
Delayed and being distant	4-	
	ts	and also chronic effects from short and long term exposure
Short term exposure		
Potential immediate effects	:	No specific data.
Potential delayed effects	:	No specific data.
Long term exposure		
Potential immediate effects	:	No specific data.
		No specific data. No specific data.
effects	:	No specific data.

effects Potential delayed effects Potential chronic health effe	: ect	No specific data. <u>s</u>
effects Potential delayed effects Potential chronic health effects No known significant effects	: ect	No specific data. <u>s</u> critical hazards.
effects Potential delayed effects Potential chronic health effects No known significant effects Conclusion/Summary	: e <u>ct</u> or ( :	No specific data. <u>s</u> critical hazards. No known significant effects or critical hazards.

**Reproductive toxicity** : No known significant effects or critical hazards.

#### 11.2 Information on other hazards

#### 11.2.1 Endocrine disrupting properties

The product does not contain components included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, and identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration  $\geq 0.1\%$  (w/w).

### 11.2.2 Other information

No additional information.

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
Ethylene oxide and propylene oxide block copolymer	Acute EC50 >100 mg/l	Micro-organism	96 hours
Conclusion/Summary	: Based on available data, the	classification criteria are not met.	·

#### 12.2 Persistence and degradability

Product/ingredient name	Test	Result		Dose	Inoculum
Ethylene oxide and propylene oxide block copolymer	OECD 301B	79 % - Readily - 28	days	-	-
<b>Conclusion/Summary</b> : This surfactant complies with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.					
Product/ingredient name	Aquatic half-lif	e	Photolysi	s	Biodegradability
Ethylene oxide and propylene oxide block copolymer	-		-		Readily

#### 12.3 Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
Ethylene oxide and propylene oxide block copolymer	-	<500	low

#### 12.4 Mobility in soil

Soil/water partition coefficient (Koc)	: Lack of data.
Mobility	: Water-soluble

Water-soluble liquid The substance is heavier than water and can penetrate into the groundwater.

#### 12.5 Results of PBT and vPvB assessment

Product/ingredient name	PBT	Р	В	Т	vPvB	vP	vB
Ethylene oxide and propylene oxide block copolymer	No	No	No	No	No	No	No

#### 12.6 Endocrine disrupting properties

The product does not contain components included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, and identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration  $\geq 0.1\%$  (w/w).

#### 12.7 Other adverse effects

No known significant effects or critical hazards.

### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

<u>Product</u>	
Methods of disposal	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional or local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
Hazardous waste	<ul> <li>Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.</li> </ul>
European waste catalogi	

#### European waste catalogue (EWC)

Waste code	Waste designation
16 03 06	organic wastes other than those mentioned in 16 03 05

#### <u>Packaging</u>

Methods of disposal

: The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Type of packaging	European waste catalogue (EWC)	
Barrel	15 01 04 metallic packaging	
Special precautions	: This material and its container must be disposed of in a safe way. Empty container or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.	

# **SECTION 14: Transport information**

	ADR/RID	ADN	IMDG	ΙΑΤΑ
14.1 UN number or ID number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
14.2 UN proper shipping name	-	-	-	-
14.3 Transport hazard class(es)	-	-	-	-
14.4 Packing group	-	-	-	-
14.5 Environmental hazards	No.	No.	No.	No.

**14.6 Special precautions for user**: **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7 Maritime transport in** : Not regulated. **bulk according to IMO instruments** 

# **SECTION 15: Regulatory information**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU Regulation (EC) No. 1907/2006 (REACH)</u>

Annex XIV - List of substances subject to authorization

### <u>Annex XIV</u>

None of the components are listed.

### Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions : Not applicable. on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

#### Other EU regulations

DIRECTIVE 2008/68/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 24 September 2008 on the inland transport of dangerous goods (ADR, ADN, RID)

IATA /International Air Transport Association/ Dangerous Goods Regulations (ICAO/IATA DGR)

International Maritime Dangerous Goods Code (IMDG CODE)

REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents

REGULATION (EC) No 1223/2009 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 30 November 2009 on cosmetic products

#### Ozone depleting substances (1005/2009/EU)

Not listed.

#### Prior Informed Consent (PIC) (649/2012/EU)

Not listed.

### Persistent Organic Pollutants (2019/1021/UE)

Not listed.

#### **Seveso Directive**

This product is not controlled under the Seveso Directive.

#### **National regulations**

#### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

**15.2 Chemical Safety** : Not applicable. Assessment
